#### A BUILDING CODE NEEDED.

A local architect has handed us the following in connection with the letter which appeared in the last issue of this paper:

To The Tribune:  
Being an architect, I am endorsing the stand taken by your correspondent who signed himself A Local Contractor. It would be to my personal advantage if every person would consult an architect before building. But I maintain with the builder mentioned, that it would also be to the advantage of the owner, and it would be to the advantage of the contractor. So everyone would be benefitted.

But I have another view of the matter which he did not mention. There are some houses and business buildings in North Platte which have been erected without being well planned. They are an eyesore and almost a disgrace. You have no doubt noticed some of them. They are not artistic. They violate every quality of beauty. They do not represent the value which was put into them. They should never have been built. No citizen has a right to build an outlandish home or construct an ugly store alongside one of the other which has been well designed and is pleasing to the eye. It is a civic responsibility which we should undertake at once to see that all buildings constructed from now on are designed so they will not offend our better tastes.

The City Council now has before it a building code. Some minor changes and additions are being made and then it will come up for final action. I am not familiar with the contents of this measure but I have studied the building codes of other places and have a pretty good idea of the subject in general. We should have a building inspector who should pass on all plans and specifications before work on a structure is started. We should have someone who would inspect and approve all electric installation and someone who is responsible for sanitary plumbing. The code should prescribe all conditions to make buildings safe, sanitary and beautiful. If the measure now before the Council does this it should be passed as soon as possible.

North Platte is no longer a village but a flourishing city and we must adopt city manners as soon as possible.

Very truly,  
A LOCAL ARCHITECT.

#### ESTHER ALICE JERGENSEN.

Esther was born August 21, 1916 at Sterling, Colo. and died at North Platte Sept. 2, 1920.

A year after her birth she came with her parents to Lincoln county, where the family has resided since. Little Esther was of a sweet disposition, loving and winning. One of her pastimes was singing, her favorite song which was "When Love Shines In."

About a week ago she swallowed a pin button, the pin becoming lodged in her throat. This mishap necessitated an operation. However God ordained otherwise and at twenty minutes after one Thursday morning her little life passed out of this vale of sorrow and trouble into the great world of light and happiness with God.

Those who mourn her departure are her parents, Mr. and Mrs. Wm. Jergensen and her two sisters and a brother, Thelma, Mildred and Gerald; furthermore her grandparents, Mr. and Mrs. N. P. Jergensen and Mr. Wm. Harris; and finally her two aunts, six uncles, eleven cousins and other relatives and friends.

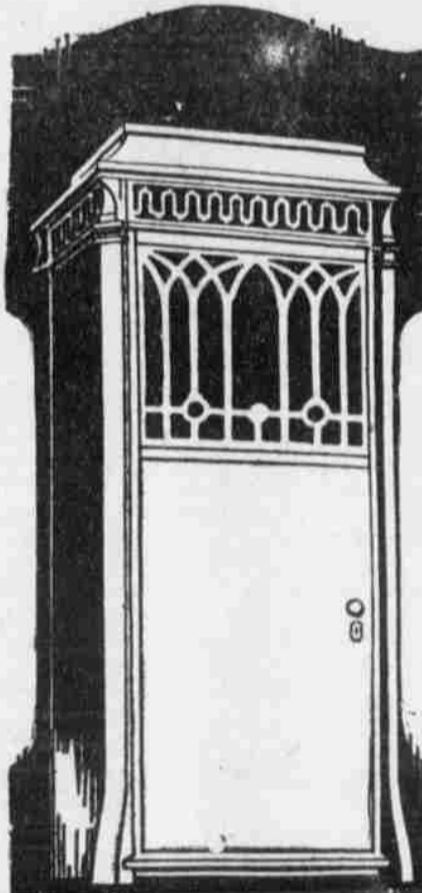

The funeral services were held at her grandparents home at 302 E. B st., Saturday afternoon. Rev. Sherk officiating. Esther was laid to rest in the Plainview Cemetery south of Maxwell.

A FRIEND.

#### Ostrich Eggs Slow to Spoil.

Ostrich eggs keep a long time before spoiling, according to a report by M. H. Junelle to the French Acclimatization society. He tells of ostrich eggs sent to him from Telnar on August 22, 1919, which reached him at Marseilles on December 12 still perfectly good. M. Hermentier had eggs that he opened and into which he dipped as he needed them; this for several days.

La Nature suggests that if a regular supply of ostrich eggs in large enough quantities could be arranged for it would be a boon to the confectionery and baking trades as one ostrich egg contained considerably more than a quart of goodness.

You're taking the  
right step when  
you switch to  
**Spurs**

**Y**OU can't do better. After you've smoked through a pack of Spurs, you won't want to go back to other cigarettes. You'll find your old kind sort of flat and uninteresting, like last year's politics.

For Spur's good tobacco taste can't help but win you for keeps. There's rich, mellow Turkish, flavorful Burley and other home-grown tobaccos blended in a new way that brings out to the full the all-'round goodness of this top-notch cigarette.

And Spurs top all—all ways. They're crimped. That means slow burn, smooth taste—no paste. The smart "brown-and-silver" package is three-fold to keep Spurs fresh and fragrant.

Twenty cents will prove that Spurs are your kind of cigarettes—top-notch quality at rock-bottom price. The sooner you try them the gladder you'll be.
